

About JACIE

The Joint Accreditation Committee-ISCT & EBMT is a not-for-profit body established in 1998 for the purposes of assessment and accreditation in the field of haematopoietic stem cell (HSC) transplantation. JACIE's primary aim is to promote high quality patient care and laboratory performance in haematopoietic stem cell collection, processing and transplantation centres through the development of global standards and an internationally recognised system of accreditation.

Inspectors

Being a JACIE inspector is often described as a learning experience but not just for the centres. Inspectors gain an unparalleled insight into how other professionals work and organise care delivery. JACIE is actively seeking to recruit new inspectors. Candidates should have at least 5 years experience in the clinical application, collection or processing of HSCT or 3 years experience as a Quality Manager in a transplant programme.

If you are interested, please speak to the JACIE Staff at the EBMT stand who will be happy to provide you with more information or write to inspectors@ebmt.org.
