Benchmarking of transplant outcomes presentation_Hein Putter	Cell Therapy Form Presentation_Chiera Secco
	Allograft MED-B presentation_Jakob Passweg

MACRO taster sessions also took place and were well received. As the EBMT customisation is still in development, recordings are not available online, but we will keep you informed of our training plans as the project progresses. You can view the presentation "Introduction to MACRO" at the above link.

The recent recordings of the ProMiSe training sessions are also available to view. The following have been updated:

- [MED-A data entry training](#)
- [HLA data entry training](#)
- Using Reports to clean your data: [List of reports](#) and [Video](#)

Thank you to all Speakers, Trainers, Chairs and Assistants who were part of this programme, and especially to the Data Managers who could attend. We take your feedback into account and the report of EBMT 2018 is available [here](#)

GDPR

The following communication has been emailed to all EBMT members from the Executive Committee.

Dear EBMT Member,

EBMT is strongly committed to protecting the privacy of personal data that we maintain about patients, members and employees. As you may know, the General Data Protection Regulation (EU 2016/679) (GDPR) will be enforced on the 25th of May and in this context, we would like to take the opportunity to inform you about how EBMT processes patient personal data. For more information, please read the [EBMT Patient Personal Data Protection Statement](#).

Additionally, EBMT has developed a template [Consent Form For Data Registration With EBMT](#) to fulfil the GDPR requirements and to support EBMT Centres and National Registries in their implementation at a national level. The template has been produced by the EBMT GDPR working group, revised by the EBMT Board of the Association and Scientific Council, revised and endorsed by the EBMT legal advisors for compliance with GDPR, and finally approved by the EBMT Executive Committee. This consent form template is meant to be used as guidance and may need to be adapted in accordance to specific national regulations and the needs of the centre. The EBMT's objective with the development of this template is to assist its Centre Members in the process of GDPR implementation as much as possible.

Likewise, EBMT is also committed to protect the personal data that we maintain about our members, you can find further information on our [Privacy Policy](#)

If you have any comments or questions about how EBMT processes personal data, please send them to Data.Protection@ebmt.org

EBMT Executive Committee

EBMT 2019 – Save the date!

We look forward to welcoming data managers at the EBMT Congress next March in Frankfurt! A full educational programme for Data Managers will take place on Monday 25th and Tuesday 26th March. More details will follow online at www.ebmt.org. We welcome your ideas and suggestions for topics to include. Please email the coordinator of the DM programme: Khrystyna.Valkiv@ebmt.org
