### ON GOING PROJETS UPDATE: RESEARCH

#### Indian Study Objective: To understand impact of EBMT NG educational courses on nurses competency in India

- India is one of the LMICs in rapid evolvement with 75 transplant centers officially reporting their activities to national registry.
- EBMT NG Board and GEC is in contact with local authorities in order to support the formation of the Indian BMT Nurses Group Network and to establish the educational program for nurses in line with JACIE standards -> supported by JACIE office.
- In collaboration with NG RC – study design 3 phases:
  - Phase 1 Survey (S1): Identify current clinical practice, educational gaps linked to JACIE standards: Group A (all Indian BMT centers) vs Group B (educational course participants (S1+S2)).
  - Phase 2: Deliver the EBMT NG educational course that meets JACIE standards. (December 14th and 15th).
  - Phase 3: Compare results of the participants group (GROUP B-(S2)) with the results of the Survey sent to all Indian centers (GROUP A (S1)).
  - Results being analyzed.

#### Infection prevention and control nursing practice and educational needs assessment in BMT units in Low and Middle Income Countries (LMICs)

- Survey of Infection Control/Prevention practice in LMICs – Survey closed.
- Data under analysis.
