INTRODUCTION

Reaching out globally through education

In 2016, the EBMT Nurses Group created a new, cross-sectional committee, the Global Educational Committee (GEC), involving the EBMT Nurses Board and other committees of the Nurses Group.

A key objective of the committee is the organization and coordination of HSCT nursing educational events and activities in LMICs, working in collaboration with like-minded entities.

ACTIVITIES CARRIED OUT

Despite all the difficulties we faced because of COVID -19, we have tried to continue working with the same enthusiasm, trying to meet our objectives of collaboration, training and support of BMT Nurses in LMICs.

PS13, Nurse education through innovation and collaboration

The EBMT Nurses Group (NG) was created 36 years ago and has over 750 members in more than 60 countries worldwide with a principal nurse in almost each EBMT registered centre. Our mission is to enhance and value the nurses' role around the world, supporting and sharing knowledge through communication, advocacy, research, training and education. The group is dedicated to improving the care of BMT and cell therapy recipients and promotes excellence in care by recognizing, building upon and providing evidence-based practice.

→ Continuous training ←

A collaborative educational project involving the EBMT Nurses Group, the Global Educational Committee and LABMT Nurses Group was developed offering live webinars for nurses, hosted by experts from both societies' members.

The objective of these webinars is to obtain the knowledge and skills necessary to guarantee quality care to those patients who receive a hematopoietic stem cell transplant.

This educational programme was based on ten interactive webinars followed by live question-and-answer sessions (available on the EBMT e-learning platform).

This program has been in place for 2 years, and is still well attended.

SPEAKER	TITLE	AUDIENCE	REGISTRATIONS				ATTENDEES
			TOTAL	FROM EBMT	FROM OTHER SOCIETYS	NOT MEMBERS	
Eugenia Trigoso	Quality Management and FACT-JACIE Accreditation. Role of the Nurse Coordinator.	Nurses	203	42	49	112	92
Julia Ruiz Pato	Overview of cellular therapy process and donor selection	Nurses	225	-	-	-	123
Patricia Perez Vargas	Management of chemotherapy preparative regimens, administration and principles	Nurses	211	35	61	115	103
Lucia Vazquez	Administration of cellular therapy products	Nurses	182	33	89	60	98
Paola Viveros	Care of immunocompromised patients: Neutropenia and febrile neutropenia	Nurses	242	30	91	121	143
Maika Garcia y Silvana Jubin	Venous access: Central venous catheters	Nurses	145	23	57	65	76
Liliana Torres Alaña	Supportive care: Nutrition, pain	Nurses	176	41	61	74	78
Cristina Vogel	Acute GvHD: Evaluation and nursing care	Nurses	170	19	28	37	85
Cristina Gallego	Patient and family education	Nurses	170	37	61	72	83
Lidiane Costa	Palliative care	Nurses	87	23	30	34	39

Certificates: 185 Spanish speaking and 20 English speaking

ACHIEVEMENTS

PUBLICATIONS

THE LANCET
Haematology

The success of a haematopoietic stem-cell transplantation (HSCT) programme relies heavily on appropriately trained and experienced nursing staff.

The Global Educational Committee (GEC), in collaboration with like-minded entities, is working to foster and strengthen the ability of local nurse leaders to develop and sustain educational networks, creating a model not solely dependent on EBMT but that becomes part of the global community.

Date	Target patients	Method	Training hours	Attendees	Aim
Moscow, Russia 2012	Paediatric	Training course, lectures, hospital visits	55 h	100	Nurse education, standardisation of nursing protocols
Moscow, Russia 2013	Adults and paediatric	Training course, lectures, hospital visits	55 h	100 (approximately)	Nurse education
Saint Petersburg, Russia 2013	Adults and paediatric	Training course, lectures, hospital visits	15 h	100 (approximately)	Nurse education
Guangzhou, China February, 2016	Adults and paediatric	Training course, lectures, and hospital visits	55 h	150 (from ten hospitals)	Nurse education
Mumbai, India December 2016, and December 2018	Adults and paediatric	Training course, lectures, and hospital visits	55 h	203 in 2016 (from 12 states and 39 hospitals) and 200 in 2018	Nurse education, support of Indian Nurses Group
Yangon, Myanmar December 2017	Paediatric	Training course, lectures, workshop, hospital visits	55 h	100 (from two hospitals)	Nurse education
Brazilia, Brazil July and August, 2019	Adults and paediatric	Training course at LABMT-SBMTO meeting, lectures	55 h	300 (from seven countries)	Nurse education, support of LABMT Nurses Group

LABMT-The Latin American Bone Marrow Transplantation society. SBMTO-Sociedade Brasileira de Transplante de Mídula Óssea.

BROADCASTING

Eugenia Trigoso Arjona (in English) on nursing and haematological care

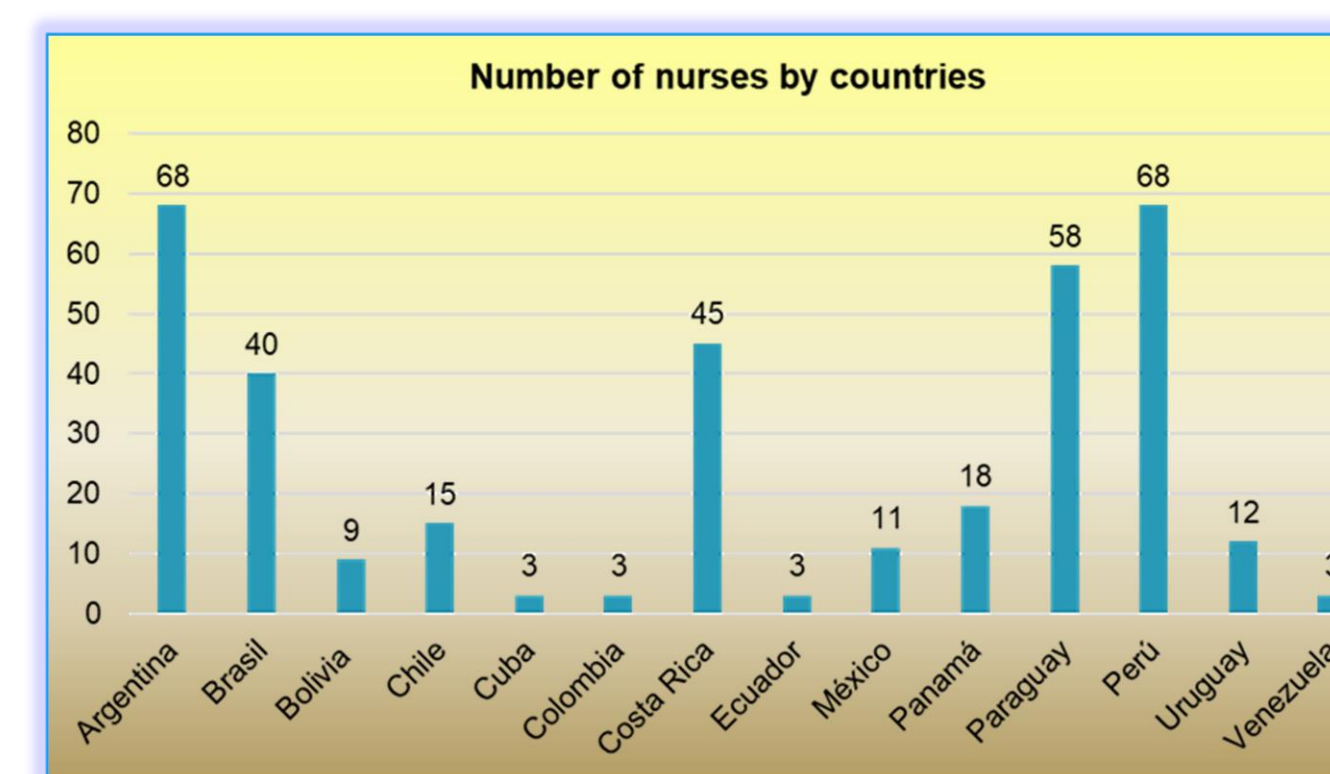

Released Tuesday, 11th May 2021

To mark International Nurses Day, Eugenia Trigoso Arjona, nurse coordinator at Hospital La Fe (Valencia, Spain) and chair of the European Society for Blood and Marrow Transplantation Nurses Global Education Committee, joins acting Editor-in-Chief Yaiza del Pozo Martin to discuss how nurses can reshape the future of haematological care.

PROJECTS 2021-2022

LABMT

We have found that engagement of local nurses is essential, as they are knowledgeable of the local culture, tradition, priorities, and resources. Networking has empowered nurses and supported establishment of LABMT Nurses Group.

Objectives:

- Increase the number of nurses per country.
- Continue mentorship and support the group.
- Provide support for JACIE accreditation.

SUPPORT EAST FORUM NURSES GROUP

Our aim is to work together with the East Forum in its new phase, rebuilding nurses' group and supporting training programs with the following actions:

- Support Chair with contacts to rebuild the EF group.
- Explore with them educational support needed (survey to be developed).

WBMT

At the end of 2021 WBMT was contacted detecting that there was a need of Nurses participation in this worldwide organization.

The first step of collaboration will be at the next WBMT congress that will be held in September 2022. A Nurses program has been included, organized by local nurses, LABMT Nurses, Asian Pacific Nurses and EBMT Nurses Group through the GEC.

Next steps are to be evaluated.

...in the post pandemic era:

The EBMT Nurses Group through the GEC continues working with the same enthusiasm, adapted to the pandemic situation, to achieve the development of nursing educational programmes in outreach countries.

Our mission is to support education and development of nurses all over the world. Nurse training are essential to provide high-quality nursing care in LMICs and worldwide for every patient having a HSCT.
