My involvement as a President with EBMT has been about passion, vision, and serving.

President’s Activity Report
2014-2017

Mohamad Mohty
My Vision 4 years ago was...

- Enhancing the scientific output of the organisation
- Collaborating with the different international working and cooperative groups
- Widening the scope of the Annual Meeting
- Developing a broad annual educational events agenda
- Advocating for patients in order to maintain a high standard of care

In the next slides, you can find the summary of my 4 years of presidency, thanks to your strong and continuous support...

The Registry upgrade project

In January 2017, the EBMT Registry database reached the milestone of 500,000 patient registrations.

After the failure of the first registry upgrade project launched in 2012, Elsevier was appointed to develop a new registry system, based on the EDC system called MACRO. The registry upgrade project is now on track and will be delivered successfully soon.

During 2017, the new Cell therapy forms were finalised and implemented in preparation of the advent of the novel cellular therapies such as CAR-T cells.
