

The Joint Accreditation Committee-ISCT & EBMT is a not-for-profit body established in 1998 for the purposes of assessment and accreditation in the field of haematopoietic stem cell (HSC) transplantation. JACIE's primary aim is to promote high quality patient care and laboratory performance in haematopoietic stem cell collection, processing and transplantation centres through the development of global standards and an internationally recognised system of accreditation.

Management of adults and children undergoing CAR t-cell therapy: best practice recommendations of the European Society for Blood and Marrow Transplantation (EBMT) and the Joint Accreditation Committee of ISCT and EBMT (JACIE). Haematologica, Submitted, haematol.2019.229781. <https://doi.org/10.3324/haematol.2019.229781>

Two JACIE training courses were held during 2019, both in Barcelona, Spain with **38** participants in total from **17** countries while **6** other meetings and events were dedicated to or included accreditation. Furthermore, in September, a joint JACIE-FACT workshop was held at the [WBMT/WHO meeting in Asunción](#), Paraguay

JACIE Inspectors

Benefits:

- The inspection is an excellent way of learning about JACIE for your own centre
- Visit other centres (in your country or abroad) and see best practices, how other professionals work and organize themselves
- Contribute to promote and implement quality in the transplant community
- Discounts in fees: centres with active inspectors can avail of discounts of up to 20% for their next accreditation fees
