*"Behold the future  
of Haematopoietic Stem Cell  
Transplantation and Cellular Therapies"*

# EBMT

---

The EBMT is a non-profit medical and scientific organisation established in 1974 dedicated to increasing survival rates and enhancing the quality of life of patients with life-threatening blood cancers and diseases.

EBMT Members – more than 6,000 physicians, nurses, scientists and other healthcare professionals – participate in a unique collaborative network of peers involved in Haematopoietic Stem Cell Transplantation (HSCT) and gene and cellular therapy research. Membership encompasses more than 600 centres from over 70 countries performing or otherwise involved in the field.

The EBMT Registry is the backbone of the EBMT's research and educational activities. The main purpose of the Registry is to provide a pool of data to perform studies and assess new trends in HSCT & gene and cellular therapy. As of 2023, the EBMT Registry has acquired data on over 800,000 HSCT procedures as well as data on over 4,000 patients that received CAR T-cell therapy.

**BENEFITS**  
of the non-commercial  
Partner of Excellence  
Agreement

A photograph of a woman in a white lab coat looking through a microscope is overlaid with a semi-transparent blue filter. The text is positioned in the lower right area of the image.

# Benefits

## Visibility

The EBMT website contains more than 200 pages of content related to HSCT & gene and cellular therapy, studies and the latest news in the field. The website, with more than 100,000 page views per month, is the perfect platform to boost your visibility to the community. As an EBMT non-commercial Partner of Excellence, your logo will be listed as a supporter of the EBMT on our website and in our marketing and promotional collateral, such as our Annual Report, with more than 3,000 copies printed and distributed each year.

## EBMT Reports on Specific Areas of Interest

The EBMT Registry is the backbone of EBMT's research and educational activities. As of 2023, the Registry has acquired data on over 800,000 HSCT procedures as well as data on over 4,000 patients that received CAR T-cell therapy. The purpose of the Registry is to provide a pool of data to EBMT members to perform studies, assess epidemiological trends, and ultimately improve patient's lives. EBMT non-commercial Partner of Excellence includes access to a standard data report on a subject within your area of interest. The report will be based on maximum 5 items of your choice and will provide you with an overview of specific information registered in the EBMT Registry once a year.

## National Health Authority Requests

EBMT is interested in supporting the clinical research needs of partners with our extensive data services.

Partners are entitled to request national health authority driven queries. Based on a specific agreement including a tailor-made budget, partners can use the resources and know-how of the EBMT Study Offices (based in Paris

and Leiden) to obtain reports, anonymous data files or statistical analyses, investigating topics in HSCT & gene and cellular therapy.

Through our experience and collaboration with experts in the field we can advise on the best design for your request.

## Collaboration with EBMT Experts

The EBMT has a network of more than 600 centres from over 70 countries; this allows the EBMT to coordinate studies, educational events and patient care strategies.

Partners will be able to receive scientific input from some of the key opinion leaders in the field such as EBMT Board Members, Working Party Chairs and the EBMT Scientific Committee.

## EBMT Stakeholder Meetings

EBMT is the co-founder of GoCART, a multi-stakeholder coalition of patient representatives, health care professionals, pharmaceutical companies, regulators, Health Technology Assessment (HTA) bodies and reimbursement agencies, and medical organisations, collaborating to maximise the potential of cellular therapies manufactured from cells and tissues of haematopoietic origin. As a Partner of Excellence, you have the opportunity to join the coalition and interact with other companies and EBMT Working Party members, as well as receive scientific input from experts in the field, exchange of information on new developments, open discussions, launch joint initiatives or receive information about potential future collaborations with the EBMT.

Partners of Excellence are invited to meet with EBMT face to face during the EBMT-EHA CAR T-cell Meetings and the Annual Meetings of the EBMT to discuss scientific research options.

# Become an EBMT non-commercial Partner of Excellence

Becoming an EBMT non-commercial Partner of Excellence (EPE) will allow you to work and collaborate with the EBMT community on different ventures, within your specific area of interest. With your support, we will be able to invest in enhancing the registry, data quality and scientific studies, improving patient care and outcome.

Your partnership agreement with the EBMT grants eligibility to work with us on personalized projects. Costs will be assessed case by case, independently of the partnership fees.

All rates are locked in for the duration of your contract, irrespective of possible price increases. You can choose between our different enrolment plans in order to make the most out of our partnership.

## Services provided by EBMT:

### • Collaborations

- Consulting
- Expert panel (specific scientific topics)
- Health Authority package
- Education
- Grant applications

### • Deliveries

- Survey
- Report based on feasibility of available RWE data
- Statistical analysis

## Partnership Fees

### EPE BASIC

12,000€  
1 year

This EBMT Basic Plan  
includes a flat membership fee for  
1 year.

### EPE PLUS

33,000€  
3 years

An EBMT Plus Plan  
includes a flat membership fee for  
3 years.

### EPE PREMIUM

54,000€  
5 years

An EBMT Premium Plan  
includes a flat membership fee for  
5 years.\*

\*With the Premium option, you save six months in membership fees and eliminate the risk of being affected by possible membership price increases, over the five-year period.
