16:00 – 18:30 Scientific Business Meeting

Thursday, 2 October 2025

08:45 – 09:00 Welcome from the organisers

09:00 – 10:30 Session I: Patient journey through allogeneic transplant complications

09:00 – 09:30 Keynote lecture on acute GVHD

Mohamad Mothy (FR)

09:30 – 10:30 Panel discussion

Eolia Brissot (FR)

We will interactively go through patient cases. Recognition of complications and their treatment will be covered. Pre-transplant assessment of co-morbidities and risk factors will also be discussed. Finally, we will discuss practical tips for patients recovering from HSCT, supporting patients in return to society, work, family, and their rehabilitation.

Radovan Vrhovac (HR)

10:30 – 10:45 Coffee break

10:45 – 12:15 Session II: Prevention of transplant complications

10:45 – 11:15 Keynote lecture

Nicolaus Kröger (DE)

11:15 – 12:15 Panel discussion

Some complications despite major advancements in recent years still pose a significant risk of non-relapse mortality. Currently, we have different transplantation technologies to reduce the risk of GVHD, graft failure and infectious complications. We will discuss existing strategies to improve patients' outcomes and prevent post-transplant complications – as choice of donor, prevention of GVHD and other aspects of transplantation.

Ivan Moiseev (RU)

Nadira Duraković (HR)

Dženana Džaferagić (HR)

12:15 – 12:35 Industry Symposium

12:35 – 13:20 Lunch break

13:20 – 14:50 Session III: Patient journey through early complications

13:20 – 13:50 Keynote on TMA

Rafael Duarte (ES)

13:50 – 14:50 Panel discussion

How to recognize and treat infectious and non-infectious complications in the early phase after alloSCT will be presented in an interactive fashion. We will discuss management of VOD/SOS as well as TMA with the participants based on patient cases. We will also focus on organ toxicities, including renal, central nervous and liver manifestations.

Grzegorz Basak (PL)

Lana Desnica (HR)

Job Rexal Perez Gaddi (HR)

Thursday, 2 October 2025 - continued

14:50 – 15:15 Coffee break

15:15 – 15:45 Industry Symposium

15:45 – 17:15 Session IV: Patient journey through GVHD

15:45 – 16:15 Keynote lecture (cGVHD section)

Steven Pavletic (US)

16:15 – 17:15 Panel discussion

We will discuss management of GVHD with the participants based on patient cases. Recognition of complications and their treatment will be discussed in an interactive fashion. Attendees will improve their skills in diagnosis and grading of GVHD as well as in therapy of acute and chronic steroid-refractory GVHD. In addition, we will give practical tips caring for a patient with GvHD, e.g. on eye, mouth and skin care.

Olaf Penack (DE)
Drazen Pulanic (HR)
Vedrana Turkovic (HR)
Lucija Jurišić (HR)

17:15 – 17:30 Coffee break

17:30 – 19:00 Session V: Patient journey through late effects

17:30 – 18:00 Keynote on Patient reported outcomes

Hélène Schoemans (BE)

18:00 – 19:00 Panel discussion

We will talk about clinical presentation of late effects based on individual patient cases. Attendees will learn how to better detect and manage different late effects including cardiovascular, renal, endocrine, neurological complications, as well as secondary cancer and gender-specific late effects. The basics of assessing symptoms and late effects will be explained and the use of up-to-date tools to use patient reported outcomes will be discussed.

Lars Klingen Gjørde (DK)
Zinaida Perić (HR)
Matea Meden (HR)

Friday, 3 October 2025

09:00 – 10:30 **Session VI: Patient journey through CAR T-cell therapy**

09:00 – 09:30 Keynote lecture

Reuben Benjamin (UK)

09:30 – 10:30 Panel discussion

Charlotte Graham (IT)

Using patient cases, we will discuss pre-CART assessment of co-morbidities and risk factors. We will talk about bridging therapy, lymphodepletion, risk for complications and follow up. In an interactive fashion attendees will learn how to manage early and late complications after CAR-T therapy

Daniele Avenoso (IT)

10:30 – 11:15 **Industry Symposium**

11:15 – 11:30 Coffee break

11:30 – 13:30 **Session VII: Patient journey through CAR T-cell therapy**

11:30 – 12:00 Keynote lecture

Anna Sureda (ES)

12:00 – 13:30 Panel discussion

Alberto Mussetti (ES)

We will focus on improving skills in diagnosis and grading of CRS and ICANS as well as cytopenias and infections. We will go through cases with The participants and discuss the prevention, diagnosis, and management of these complications. We will also assess more rare complications as neurological, HLH etc.

Paul Ferguson (UK)

Víctor Noriega (ES)

13:30 – 13:45 **Closing remarks and farewell**
