

# Scientific Programme

Thursday - 25<sup>th</sup> October 2018

9:00-9:15 **Introduction and welcome to Stockholm** *P. Ljungman*

## SESSION I: VIRAL INFECTIONS

*Chair: M. Schmidt-Hieber; H. Einsele*

9:15-10:00 **CMV; The troll of Transplantation** *H. Einsele*

10:00-10:30 **Other herpesvirus infections** *J. Styczynski*

10:30-10:50 **Coffee Break**

10:50-11:20 **Respiratory virus infections** *M. Boeckh*

11:20-11:40 Case report 1 *B. S. Cetin*

11:40-12:00 Case report 2 *D. Taurino*

12:00-12:40 **Hepatitis and GI infections** *M. Mikulska*

12:40-13:05 **Lunch kindly supported by Biotest**

13:05-13:50 **Symposium kindly supported by Biotest**

### **Infections in HSCT: new perspectives from an immunological approach**

Potential role of IgM-enriched immunoglobulins as adjuvant therapy in MDR infections *J. Peccatori*

Prophylaxis and treatment of CMV infections: re-thinking the role of anti CMV-specific immunoglobulins *M. Malagola*

## SESSION II: FUNGAL INFECTIONS

*Chairs: S. Cesaro, C. Robin*

13:50-14:35 **Diagnosis of fungal infections: is there anything new?** *S. Cesaro*

14:35-15:20 **Management of mold infections** *O. Blennow*

15:20-15:40 **Coffee Break**

# Thursday - 25<sup>th</sup> October 2018

---

<b>15:40-16:00</b>	Case report 3	<i>S. Giammarco</i>
<b>16:00-16:30</b>	<b>Pneumocystis jiroveci</b>	<i>C. Robin</i>
<b>16:30-16:50</b>	Case report 4	<i>Y. Rogacheva</i>

---

# Friday - 26<sup>th</sup> September 2018

## SESSION III: BACTERIAL INFECTIONS

*Chairs: M. Mikulska, D. Averbuch*

9:00-9:45 **Management of multiresistant bacteria** *D. Averbuch*

9:45-10:05 Case report 5 *L. Fedorova*

10:05-10:25 **Coffee Break**

10:25-10:55 **Uncommon bacterial infections (legionella, nocardia etc)** *M. Mikulska*

10:55-11:40 **Management of severe sepsis** *K. Strålin*

11:40-12:15 **Lunch kindly supported by Chimerix**

12:15-13:00 **SYMPOSIUM KINDLY SUPPORTED BY CHIMERIX**

### **Establishing adenoviremia as a predictor of outcome post HSCT**

Introduction

Adenovirus in the immunosuppressed post-transplant host *P. Ljungman*

Adenoviremia as a predictor of clinical outcome in the pediatric HSCT recipient *P. Hiwarkar*

Exploring viral predictors of clinical outcomes Post HSCT *P. Ljungman*

## SESSION IV: IMMUNOLOGY AND NEW CONCEPTS

*Chairs: C. Cordonnier, R. de la Camara*

13:00-13:45 **Microbiota and HSCT** *J. Biliński*

13:45-14:30 **Vaccination and HSCT** *C. Cordonnier*

14:30-15:10 **New drugs and risk for infection** *G. Maschmeyer*

15:10-15:30 **Coffee Break**

# Friday - 26<sup>th</sup> September 2018

---

15:30-16:00	<b>Genetic susceptibility to infection</b>	<i>L. Gil</i>
16:00-16:20	<b>My favorite stem cell transplant ID publications last year 1</b>	<i>C. Cordonnier</i>
16:20-16:40	<b>My favorite stem cell transplant ID publications last year 2</b>	<i>R. de la Camara</i>
16:40-16:45	Summary and farewell	

---
