

Scientific Programme

Thursday - 17th October 2019

08:00-08:10 **Opening** *J. Styczynski*

SESSION 1: BACTERIAL INFECTIONS

Chairs: L. Gil, D. Averbuch

08:10-08:55 **Keynote Lecture 1: Bacterial infections after HCT: management and prevention** *D. Averbuch*

08:55-09:10 **Case Report: De-colonization of multidrug resistant Gram-negative bacteria due to fecal microbiota transplantation in allo-HSCT recipient in critical condition** *O. Syuskin*

09:10-09:20 **Discussion**

09:20-09:50 **Coffee break**

SESSION 2: FUNGAL INFECTIONS

Chairs: C. Kassa, R. de la Camara

09:50-10:35 **Keynote lecture 2: Fungal infections after HCT** *R. de la Camara*

10:35-10:45 **Case Report: Triple rare case: rare localization of rare IFD in rare patient; Invasive candidiasis cause by *Candida tropicalis* in pediatric allo-HSCT recipient with lysosomal storage disease** *V. Ovechkina*

10:45-10:55 **Case Report: False-refractory invasive aspergillosis in patient with angioimmunoblastic T-cell lymphoma after haploHSCT** *E. Lepik*

10:55-11:05 **Case Report: Arteriovenous fistula as an unusual iatrogenic complication of invasive fungal pulmonary lesion surgery removal** *P. Mensah-Glanowska*

11:05-11:15 **Case Report: Invasive *Mucor* mycosis in ALL pediatric patient; candidate for allo-HSCT from endemic area** *I.V. Markova*

Thursday - 17th October 2019

11:15-11:25 **Case Report: Should we do allogeneic hematopoietic stem cell transplantation in patient with pre-existing mucormycosis, why not?** *Y. Rogacheva*

11:25-11:35 **Case Report: Lichteimia corymbifera and Apergillus spp. as the etiology of sinusal and orbital complications in patient with GVHD after MUD-PBSCT** *K. Czyzewski*

11:35-11:45 **Case Report: Meningoencephalitis by Ascomycota cordycipitaceae after 2nd allogenic HSCT in a patient with relapsed acute myeloid leukemia** *C. Buhl*

11:45-12:00 **Discussion**

12:00-12:30 **Lunch Break**

SESSION 3: VIRAL INFECTIONS

Chairs: A.Piekarska, M.Mikulska

12:30-13:15 **Keynote lecture 3: Respiratory viral infections after HCT** *M. Mikulska*

13:15-13:30 **Case Report: Influenza H1N1 in multiple myeloma patient during high dose chemotherapy following auto-HSCT** *V. Porunova*

13:30-13:50 **Analysis of clinical cases of respiratory viral infections** *A. Piekarska*

13:50-14:00 **Discussion**

SESSION 4: CASE REPORTS OF YOUNG INVESTIGATORS

Chairs: O. Blennow, M.Schmidt-Hieber

14:00-14:15 **Case Report: Allogeneic hematopoietic stem cell transplant in HIV-seropositive recipients: a case series** *C. Oltolini*

14:15-14:30 **Case Report: Cutaneous lesion after allogeneic stem cell transplantation** *M. Stamouli*

Thursday - 17th October 2019

| | | |
|-------------|--|------------------|
| 14:30-14:45 | Case Report: Etiology of fungemia in acute leukemia and hematopoietic stem cell transplant patients: retrospective single center analysis 2015-2018 | <i>P. Mensah</i> |
|-------------|--|------------------|

| | | |
|-------------|--|-----------------|
| 14:45-15:00 | Case Report: Successful treatment of Acanthamoeba Granulomatous Amebic Encephalitis in a hematopoietic stem cell transplant recipient | <i>N. Keane</i> |
|-------------|--|-----------------|

15:00-15:30 **Coffee Break**

SESSION 5: INFECTIONS AFTER CAR-T THERAPY

Chairs: I. Hus, G. Basak

| | | |
|-------------|---|---------------|
| 15:30-16:00 | Keynote lecture 4: Facing infections after CAR-T therapy | <i>L. Gil</i> |
|-------------|---|---------------|

| | | |
|-------------|---|------------------|
| 16:00-16:15 | Case Report: Infectious complications in a patient submitted to CAR-T cell therapy | <i>L. Sisini</i> |
|-------------|---|------------------|

| | | |
|-------------|---|---------------------|
| 16:15-16:30 | Case Report: Toxic megacolon caused by Clostridium Difficile infection during treatment with GD2-CAR-T cells | <i>G. Del Baldo</i> |
|-------------|---|---------------------|

Friday - 18th October 2019

08:00-10:00 **Open Scientific Meeting of IDWP (Business Meeting)**

10:00-10:30 **Coffee Break**

SESSION 6: SPOTLIGHT ON CMV INFECTION

Chairs: S. Cesaro, R. de la Camara

10:30-11:15 **Pharmacotherapy of CMV infection**

P. Ljungman

11:15-11:30 **Discussion**

SESSION 7: SPOTLIGHT ON MANAGEMENT OF PATIENTS AFTER CAR-T THERAPY

Chairs: J. Styczynski, L. Gil

11:30-11:45 **In-patient management**

L. Gil

11:45-12:00 **Out-patient management**

J. Styczynski

12:00-12:45 **Lunch Break**

SESSION 8: SPOTLIGHT ON EBV INFECTION

Chairs: P. Comoli, I. Hus

12:45-13:15 **Pharmacotherapy of EBV infection**

J. Styczynski

13:15-13:45 **Cellular therapy of EBV infection**

P. Comoli

13:45-14:00 **Case Report: Viral infections as a cause of the disease and as a post-transplant complication – a case of a 6-years old boy with Epstein Barr virus-induced hemophagocytic lymphohistiocytosis and several viral infections after bone marrow transplantation**

A. Falkowska

14:00-14:15 **Case Report: Bowel perforation as a rare manifestation of Epstein-Barr post-transplant lymphoproliferative disease (EBV-PTLD) in patient with chronic graft-versus host disease 6 years after allogenic hematopoietic stem cell transplantation**

M. Adamska

Friday - 18th October 2019

14:15-14:30 Discussion

14:30-15:00 Coffee Break

SESSION 9: PANEL DISCUSSION ON CLINICAL EMERGING ISSUES AFTER HCT

Chairs: C. Kassa, M. Schmidt-Hieber

15:00-15:30 Infections of CNS *O. Blennow*

15:30-16:00 Infectious aspects of therapy with anti-PD1 *C. Kassa*

16:00-16:30 GI infectious complications after HCT *M. Schmidt-Hieber*

16:30-16:50 Tuberculosis after HCT *A. Krasowska-Kwiecien*

16:50-17:05 Panel discussion

Saturday - 19th October 2019

SESSION 10: PANEL DISCUSSION ON OTHER VIRAL INFECTIONS

Chairs: S. Cesaro, R. de la Camara

| | | |
|-------------|---|---------------------|
| 08:00-08:20 | Adenovirus infections | <i>P. Ljungman</i> |
| 08:20-08:40 | HHV6 infections | <i>K. Peruccio</i> |
| 08:40-09:00 | BKV infections | <i>S. Cesaro</i> |
| 09:00-09:20 | VZV infections | <i>D. Engelhard</i> |
| 09:20-09:35 | Case Report: Mixed viral infection leading to severe neurological complications in a post-transplant patient | <i>A. Vlasova</i> |
| 09:35-09:50 | Case Report: Multiple viral infections in HSCT patient | <i>A. Margarit</i> |
| 09:50-10:15 | Panel discussion | |

10:15-10:45 **Coffee Break**

SESSION 11: PANEL DISCUSSION ON MULTIPLE INFECTIONS

Chairs: S. Giebel, M. Mikulska

| | | |
|-------------|---|----------------------|
| 10:45-11:15 | Multiple infections in GVHD phase | <i>O. Penack</i> |
| 11:15-11:45 | My personal experience with multiple infections after HCT | <i>M. Mikulska</i> |
| 11:45-12:15 | My personal experience with multiple infections after HCT | <i>D. Averbuch</i> |
| 12:15-12:30 | Case Report: Cytomegalovirus retinitis and cerebral toxoplasmosis as late transplant complications | <i>A. Serna</i> |
| 12:30-12:55 | Panel discussion | |
| 12:55-13:00 | Final remarks and Adjourn | <i>J. Styczynski</i> |
