Auditing principles

- **Integrity** – is essential to auditing
- **Fair presentation** - is the obligation to report audit findings and conclusions truthfully and accurately
- **Due professional care** – requires the application of diligence and judgment in auditing

Auditing principles

- **Independence** – is the basis for the impartiality of auditing and the objectivity of the audit conclusions
- **Evidence-based approach** – is the method for arriving at reliable and reproducible audit conclusions in a systematic way
- **Confidentiality** – it relates to the security of the information acquired during auditing activities

Auditing principles

The audit is:

- NOT intended for tracing faults
- NOT intended to evaluate persons or their work
- NOT an exam

Active Listening

- Concentrate in what others are saying
- Send verbal and non-verbal messages to show that you are listening
- Avoid early evaluations
- Avoid getting defensive
- Practice paraphrasing
- Ask questions
